

Position: Technical Inside Sales

Location: Arvada, Colorado

Fiero Fluid Power, a distributor of pneumatic and motion control automation components, is seeking a Technical Inside Sales Representatives for our Arvada Colorado location. This critical role interacts with customers over the phone and in person to work through technical issues and answer general customer questions. Through interaction with existing clients and new prospects, this role is responsible for maintaining and increasing market share in the Colorado territory.

This individual will need to research and find solutions to customer technical needs as well as prepare quotations and coordinate product details for the sales team. The internal sales team works with the outside sales staff in scheduling appointments and looking for additional opportunities to provide new products and services.

This position requires an Associates degree from an accredited college or technical school and/or two plus years' experience in Technical Inside Sales or related field. Experience with pneumatics and motion control automation components is preferred. Skills managing a territory, building client relationships, and prospecting are also preferred.

Fiero Fluid Power is a leading value added distributor of Automation, Pneumatic, and Instrumentation technologies and has been in business serving the Rocky Mountain Region since 1984. Our Company provides products and solutions to customers who make equipment of all types and those that require more automation in their process. We believe in our employees and we believe in providing superior customer service for our clients. We offer an exceptional benefit package along with a competitive compensation plan.
